VESSELS FOR THE RUSSIAN NAVY.—Webb, the N. Y. shipbuilder, is building two war steamers for the Russian Navy, one to be 330 feet long and to carry 50 guns, the other of 220 feet, to carry 10 guns. Both are propellers.

A MOVE IN THE RIVER DIRECTION.—The Stock Exchange Board-to-day resolved by the strong vote of 70 to 29 to limit their time sales hereafter within thirty days. The change of feeling in this direction of this most salutary and every wise measure was made to bring down the limit of sixty days failed to receive the required sanction of two thirds of the Board. The new rule takes immediate effect, and nothing was done at the second session of the day, over thirty days.—*N. Y. Times.*

BANK OF NAPERVILLE.—A rumor obtained some currency in the street yesterday, that the Bank of Naperville had closed its doors. There is no truth whatever in the report. The Bank is in a very bad condition and will be kept open.

REBELLION NURSES appearing in the local Colonies will charge 25 cents per line for the first ad, and 15 cents for each subsequent insertion.

...

GOODS SOLD AT RETAIL.

COUNTRY MERCHANTS visiting our city can find a collection of the principal Wholesale House and Manufacturers, by calling at the Bushard's Repository of this paper.

THE EXCURSION TO BROMHEAD.—A large party of excursionists went out yesterday to celebrate the opening of the Mill and Mrs. R. R. in Bromhead, on the Southern branch, 90 miles from this city. The telegraph reported that there were ten cars full when they left Janesville.

MISSING STEAMER.—Anxiety was felt yesterday in New York to the safety of the Central America, having a large cargo of passengers and gold, due from Aspinwall.

A MURDER IN THE POLICE COURT.—An old man was arrested for drunkards, and was fined \$5 in the Police Court yesterday morning. He was miserably clothed, and had no "dead game" at all, although he had carelessly wrapped up in a large leather wallet, which he carried in his bosom, nearly three hundred dollars in gold. He remonstrated, for almost half an hour, about the injuries of making him pay \$5 for drinking (in glass vial hid) one glass of lager too much) and would not consent to pay it, until the officer was conducting him to jail. He then concluded to pay one dollar, but the Justice was inexorable, so he offered to pay half a dollar more, but as this proposition was no more successful than the previous one, he begged to be allowed to go to borrow some money, declaring that he had not enough to pay the fine, but as the fact was well known that he had a pile of "tocks," Justice said he was to be where I pay it.

AN ADDRESS TO THE GOVERNOR.—He came to him, communicated to the Legislature, to be complete and deposit with him their reports within ten days from the 1st of October.

In conversation with one of the State officers a few days since, he has given me some reference to this act, at which he expressed considerable surprise, it being the first mention he had heard of it. The time is close at hand, and it will be necessary, for such officers, to set about their business.

THESE ARE SOME DEFECTS in the law that will render it impossible for the State Superintendent to comply with it. No provision is made by it for changing the time when District Clerks are to send to him their returns, upon which most of the acts of character depend. Under the existing laws, the Clerks do not forward their returns to him till after the 10th of October. The assemblies will be carefully looked over by the next Legislature, and all defects removed.—*Madison Journal.*

Can the Journal inform us whether the pamphlet copies of the new election law have been printed and sent out?

PROGRESS IN THE CAMPAIGN.—The Madison Patriot, the leading organ of the anti-Brown democracy, hoists the name of Judge Randal for Governor, though it still keeps up the other names of the democratic ticket. The Patriot says:

JUDGE A. W. RANDAL.—This gentleman appears at the head of our column as our candidate for Governor. It is true that he is the son of a distinguished man, and is well known and liked with A. W. Randal for many years as an anti-Brown Democrat, and as an honest, worthy and upright man, and knowing him to-day to be the most honest Democratic in all his actions, and having the utmost confidence in his integrity, we will not be afraid to support his associations of Mr. C. C. C. shall offer no other for giving to Mr. Randal our cordial and most vigorous support.

The Patriot adds:

In the first place, we wish to see our own party cleared out—all the fifth and rubbish, and excrements cast off and thrown away. Until this date, we cannot, and ought not to succeed.

BANK OF THE STATE OF INDIANA.—The Citizen of the Tribune has the following note from the President of this bank:

BANK OF THE STATE OF INDIANA.

Indianapolis, Sept. 16, 1857.

To the Editor of the Chicago Tribune.

Sir.—As Chicago has infinite business relations with Indiana, it may be interesting to you to know that the Bank of the State of Indiana has a branch in New York, and also, by the recent failure in New York, and Chicago, it is in a condition not only promptly to meet all its own engagements, but to extend facilities to her customers, to enable them to some extent to send forward the surplus products of the State.

Your &c,

H. McCULLOCH, Pres't.

The Atlantic Telegraph.

Professor Morse, addressing the Secretary of the Atlantic Telegraph Company, advises against an attempt to lay the cable across the Atlantic this year. He says, in summing up the results already attained, and that which is in prospect:

We have now demonstrated that either of the two plans of splicing in mid-ocean is practicable.

We have demonstrated that the cable once paid out from the ship is not recoverable with certainty by the means at present devised on board.

We have demonstrated that the cable can be laid out.

The advanced state of the sea soon opposes an obstacle to any further attempt at laying the cable.

WE HAVE THE SUPPLY

of the quality of our cable can be called on board ship, the scope of which, and weather sets in, adding untold difficulties to the undertaking. Hence a postponement till the mild season of June or July of another year would be best.

The right of opinion is that the next experiment will be made early next year, so that the trial should be unsuccessful, the trial may be speedily repeated.

THE ATLANTIC TELEGRAPH.

An Irishman, confined for an assault on a passenger in this city, yesterday morning, is about five feet nine inches high, stout, black curly hair, black eyes and dark complexion. He had on a pair of fustian pants, a white cotton shirt, an old drab plaid cap, and was barefooted. He was short of breath, and it was a reward for his apprehension. He is a desperate villain, and it would do the world good to shoot him on sight. We trust the press will give the widest publicity to this description, and that the police will be on the alert for him every where.

MILWAUKEE:

FRIDAY MORNING, SEPT. 18.

REPUBLICAN NOMINATIONS.

FOR GOVERNOR,
ALEXANDER W. RANDALL,
of Milwaukee.FOR LIEUTENANT GOVERNOR,
CARL SCHMITZ, of Jefferson.FOR SECRETARY OF STATE,
JOHN L. THOMAS, of Rock.FOR STATE TREASURER,
SAMUEL D. HASTINGS, of La Crosse.FOR ATTORNEY GENERAL,
MORTIMER M. JACKSON, of Iowa.JOHN P. McNEILOR, of Columbus,
FOR SUPERINTENDENT OF PUBLIC INSTRUCTION,
JOHN G. JACKSON, of Racine.FOR STATE PRISON COMMISSIONER,
EDWARD D. MCGRAW, of Newbury.

ATTAIN APPROPRIATION.

Our humble contemporary in this city, the *News*, wears its readers with a column-long article, appealing to "conservative" people to support the Slave Democratic party, and oppose the Republicans, because, as it foolishly alleges, the latter are opposed to the Constitution and the Union, and only favor a "Union of the North for the purposes of waging upon the South"; and it urges that if the Republicans "can succeed in a National election, they will establish this Union, and drive the South away by force."

It is the old cry of disunion, re-shouted from the ultra-proslavery journals; and has been often exposed. If "the South" is to be defined as "slavery aggression and extension"—carried of the 1860 trade—undesirably and carrying out Mr. Buchanan's new doctrine that the Constitution protects slavery in all the Territories of the United States—it to unite against these things be to "make warden the South," then we, and all the Republicans, are willing for that war, sue the *News* can take, as it *does* take, the other side, and make the issue of it.

We observe that the *News*, with a cautious-like treasuring among us, is gradually coming to the full support of Mr. Buchanan's new doctrine. It cuts down as one of the offshoots of the Republicans that "they will allow the citizens of the South no rights in the common Territories of the Union."

The only "right" denied by the Republicans to the citizens of the South in the Territories is the conveying thither of the curse of slavery; the *News*' position on the subject is clear enough. But of that there was no doubt, before.

A DISTRESSFUL OUTLOOK.—The *American* seems, from an article in its yesterday's issue, to be in distress because we do not answer numerous questions which it has been pleased to put to us of late. We really beg pardon, and hasten to reply, briefly, to the whole, in a catch.

The first series related, we believe, to certain ecclesiastical matters, the *American* well knows to have no settle the matter as to whether it is right to "peace politics." With due acknowledgments for the complaint paid our judgment, we beg leave to refer the *American* to a committee of clergymen, whose names will be furnished upon application. We think that Mr. Beecher's style of argument would suit our friend's state of mind exactly.

Again, we are asked to account for the democratic majority in the House of Representatives. That is a very easy affair—the Southern Know Nothing, loving slavery as become them, have voted the Democratic ticket.

Lately, the *American* tries to puzzle us with asking whether the little party of K. N.'s in this State—there were 500 of them, so we believe—not have a right to you when party they wish—and generally whether anybody has a right to vote for anybody? We are not well posted upon the rules of the K. N.'s, having never been admitted to their secrets, but we decidedly think that the shored 500 have a right to, and ought to vote the democratic ticket, as we suppose they will. As to the general right of suffrage, we go for the largest liberty, as the *American* well knows, even to the extent of supposing that a good many people who profess intense dis-gust at the old Barstow dynasty, may after all, swallow Democracy "tautened," or "sustained."

We hope that our replies were satisfactory.

HONORABLE AND AMBUSHED.—These terms should be obsolete in the action of the Wisconsin Democracy. There is not a man in the State greater than the party to whom the party over especially should be in especial opposition. Long friendly and personal intercourse, as well as social, between Mr. Douglass and a distinguished citizen of the State, supported his nomination and election two years ago; but with the canvass our especial devotion to his interests as a political man, though we hope long to be counted as one of his personal and political friends.—*Milwaukee Argus*.

Some writer expresses the opinion that the devil should be sometimes honored, for his own thronging. This is a very bad idea, and we are disposed, on this principle, to hold up to public admiration the coexisting with which the Democratic priests treat this subject of "Bar-towism." That they feel the burden which the imputation lays upon their candidate is manifest enough.

Before their Convention the old adherents of the Barstow dynasty were hard at work all over the State, securing delegations of their own stripe, and them as Missourians still having their home and business in that State.

Gov. Walker is here, though he spends most of his time at the camp near Lawrence, where he is laboring for the election of his son, Mr. Douglass.

As a man, as a statesman, and as a distinguished citizen of the State, we supported his nomination and election two years ago; but with the canvass our especial devotion to his interests as a political man, though we hope long to be counted as one of his personal and political friends.—*Milwaukee Argus*.

Now, when they find that the people of the State are not to be bluffed, but see in the nominees the fiscal descendants of the old LaFayette and School Land plundering dynasty, those priests which upheld Gov. Barstow and his associates, in all of their wrongs against the State, even to their Election Frauds and forgeries, turn around and mildly express the opinion that the terms "Barstow" and "Anti-Barstow" should be "obsolete in the eyes of the Democracy."

"Innocent, tender-hearted Democracy!" say they, in effect, "we, the Barstowites, have ruined the party at home, but we have got no session of all the Federal Offices. We want, very much, to get another two years lease of the Treasury, of which we have taken such good care, and of the School Land Department, before the lands and fees are all gone, so just be good enough to forget 'Barstow,' and help us, won't you?"

And a good many—most—of the innocent Democracy will be just foolish enough to try and help them!

DILLY.—It is said that General Barnard, immediately before his death, wrote a letter to a friend in which he spoke of the city of Delhi as a new Sepulchre. In addition to the heavy ordnance on the ramparts, it had in store six hundred and forty heavy guns, ranging from eighteen to twenty-four pounds, besides four hundred and eighty pieces of field artillery, together with mortars and projectiles in great numbers. The population of the city is now hundred thousand. It was taken by the English in 1803, and is now one of the strongest places in the East. The English little thought when they were fortifying it that all their labor would be turned against themselves.

For the Sentinel.

"Merchandise" and its Consequences.—Messrs. Editors.—The *Sentinel*, a most excellent paper, has been a constant and welcome visitor in my family for two years past, but some four months since I allowed it to be discontinued, thinking at my advanced age of about 70 years, that the food for my mind ought to be derived from some other reading than that of Political news, papers; and consequently my feelings of sympathy are very sensitive for poor suffering humanity; and in the house where I board one copy of the Milwaukee *News* is received weekly. In his editorials we often find him abounding hard to protect himself and his party from some reading from the *Sentinel*, and very frequently it appears from his own version and lamentation that you "likely" give him "it," and in some of his paragraphs one would think that had stopped his press, and set down to make up faces at you, and his exclamations are "The Screeching black Republicans!—The screeching black Republicans!" and this is repeated more than a dozen times in one paper.

We all know this is human nature, that in the presence of our superiors and when no good argument can be found to sustain us, to make up lies and tell bad names, and it is in certain cases of great benefit, and especially when a poor creature is suffering in some severe paroxysm, a vent for the effervescence to pass off is a great relief to that distressing tempest that is raging within. For all such affect I could a great degree of sympathy. And now, Mr. Editor, enclosed you will find a dollar for which I wish you would send me the weekly *Sentinel*, for I am very anxious to learn the cause of those distressing "Screebings" of that editor, and pray let me extract you to in future to take a higher aim, and not waste your powder at so small a mark. E. F.

Oak Grove, Dodge Co., Sept. 1857.

THE MANY BLAUES AND MOWNS.—We learn from the Rockford Register that the committee of the National Agricultural Society appointed to award premiums upon the merit of machines entered at the great fair trial at Syracuse in July last, have awarded the first prize for combined strength, a gold medal to the Many machine; a silver medal to the same machine.

A steam hauler has been invented and is in constant employment in Philadelphia. With a man to fit it, another to tend the engine and a third to empty the hot, it performs quickly and cheaply the work of twenty men.

A Catechism for the Jury.

The following article from the Dubuque Times contains matter which many democrats will be the better for reading. There are a great many people who, from long habit, or to save the trouble of reflection, continue to vote the "regular democratic ticket," but who have no sympathy with the leaders or the modern doctrine of party.

ALL TRUE LOVERS OF LIBERTY ARE, AND MUST BE REPUBLICANS; AND WITH THE PRINCIPLES OF THE PARTY UNDERSTOOD, AND NOT EXAGGERATED, CAN WE TELL THEM TO VOTE FOR IT.
